

GGOS Portal

Carey Noll and Bernd Richter
Data and Information Systems Working Group

Session 6: GGOS Portal and Metadata Flow
GGOS Unified Analysis Workshop
December 05-07, 2007
Monterey, CA

- represents a single Web access point (door of entry) for all geodetic products relevant in the framework of GGOS,
- access to general information about GGOS,
- help in answering the “burning questions of society” and leads the way to the products, their characteristics, location, availability, latency, and accuracy,
- an information resource for GGOS participants (e.g., working group resources, calendar, meeting summaries, presentation archive, etc.),
- access the GGOS clearinghouse to search data catalogues, products and data sets generated by GGOS components,
- allows searching and information retrieval of descriptive metadata from multiple, diverse target resources, databases, web pages, and library catalogues.

- Installation of a GGOS Web site
- Installation of a clearinghouse
- Distributed applications for data mining of the GGOS products /data files
